

## **Tunnelless Arthroscopic Cruciate Ligament (ACL and PCL) Reconstruction** *Under Development—Patent Pending*

- Dr. Chudik filed patents and developed less invasive tunnelless techniques and instruments to reconstruct the ACL and PCL without drilling large tunnels in the bones of the femur and tibia to better reproduce the normal anatomy and function of the ligaments. Awaiting FDA approval.

Dr. Chudik's scope pictures from research development of tunnelless cruciate ligament reconstruction
